

## **Dresden Broadband & Technology Committee**

April 17, 2023

Attending: Judy Tunkle, chair, Don Gleason, selectboard representative, David Hofstader, Susan Lamb

Members reviewed and selected slides from Don's video presentation to use during our upcoming three public forums on broadband access and development. We decided to limit the presentation to 15 minutes, then open each session to questions, answers and comments. We'll also have informational paperwork and refreshments available.

We also noted that we'd received positive comments regarding the recent postcard mailings. The forums are scheduled for 2 pm May 16 (Tuesday), 7 pm May 18 (Thursday), and 2 pm May 20 (Saturday). We hope this varied schedule allows many residents to attend, learn about broadband, the opportunities and potential lower rates this technology holds for all residents.

The next committee meetings are at 7 pm May 1 and May 15 at Bridge Academy.
